## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 3, 4, 16 and 25 – 40 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 16 and 25 – 40 are allowable for the reasons set forth in the previous actions.

Claim 3 recites an apparatus for altering the during of a multi channels signal. It is well known in the art to scale an audio signal to alter its running length. U.S. Patents 6,944,510, 6,801,898, 6,598,228, 6,360,202, 5,920,840, 5,893,062, 5,842,172, 5,386,493, 5,216,744, 5,175,769, 4,864,620, 4,757,540, 4,435,832, 3,949,175 detail numerous ways to perform a time scale modification on an audio or speech signal. None of these patents discuss altering the duration of a multi channel signal. U.S. Patent 6,835,885 details a method to scale multiple tracks of audio but does not precede Applicant's priority date. While it has been shown in the previous rejections that it would have been obvious to duplicate a single channel time duration altering apparatus to perform multi channel time duration altering, the method in which the prior art discloses differs from Applicant's claimed invention in that there is a relation between the channels and the scaling. As such the claim is considered to contain allowable subject matter.

Claim 4 is allowable as being dependent upon an allowable base claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
